## **MODEL 6432/6433**

### **8" SWIVEL FLOOR COVER**

Protect players on the court by installing cover plates over in-ground sleeve inserts.

Floor cover shall be brass plated steel for model 6432 and chromed steel for model 6433. Cover plate shall have a molded plastic recessed mounting flange, cork gasket, and 8" diameter cover. Molded plastic recessed mounting flange shall be 8 13/64" in diameter and have 3 holes in the ring (for screwing into the floor) that shall be completely concealed under the cover when in the closed position, allowing for a completely flat surface. In a "floating" wood floor, the floor plate is connected to the floor only, allowing it to move with the expansion and contraction of the floor. Cover shall be 8" in diameter by 1/4" thick. Diameter of opening shall be 7".

To open, the floor cover shall lift and swivel staying parallel to the floor. A lifting key shall be provided with cover.

**6432 - Polished Brass Finish**

**6433 - Chrome Finish**

Subject to design change and current manufacturing practices.
